A HISTORY WORTH SHARING

Family-Owned Since 1979

MoveIt® was founded by D.G. Partridge in 1979 as Computer Transportation Services. The company is currently run by D.G.'s son/CEO, Todd Partridge, and daughter/CFO Elizabeth Partridge-Blessington.

We Embrace Opportunity

MoveIt® was the very first 3PL to specialize in white glove shipping, as well as one of the first to receive a license from the Interstate Commerce Commission after the trucking industry was deregulated in the Motor Carrier Act of 1980.

Three Specialties, One Company

With just one point of contact, MoveIt® offers the services of three transportation leaders - each with a different specialization, but with one common thread running through them all: reliable, personalized, value-added logistics *without* added cost.

The MoveIt® Companies

MoveIt® Specialized Logistics

Experts in providing white glove service and air ride/blanket wrap logistics for equipment that requires special handling.

MoveIt® Freight Solutions

Provides pack and ship logistics, economy ground freight, time-sensitive air freight, and international shipping services.

Shipping Source

As a MoveIt® service partner, Shipping Source provides full truckload brokerage services and smooth, no-nonsense transportation.

We're Passionate About the Environment

The MoveIt® offices are powered entirely by a solar array on the side of our property, and our building uses geothermal heating and cooling.

Not only that, but our building was designed by a LEED architect, and we've restored the surrounding farmland to native prairies and grasses to create a natural watershed. [Click here to learn more about our environmental contributions.](#)

Internal Systems - WMS/TMS

Indigo

MoveIt®'s logistics systems and IT integration are centralized through “Indigo,” an internally developed and maintained transportation management system. Every order for service is entered, rated, tracked and invoiced through this system.

Data Accessibility

Indigo is completely customizable, and clients can easily receive their status reports & bulk data transfers.

MoveIt®'s proprietary, customized TMS and ERP system is a SQL based system built on Java. Past integrations have proven our system is quickly adaptive to customers needs for API and EDI exchange.

- Customer-Specific Information
- MoveIt® Warehouse & Inventory Data
- MoveIt® Carrier Partner Management
- Tracking & Rates
- Accounting & Billing Information
- Customized Web Portal Access
- Bulk Rating & Smart Routing
- Customized Reporting

What Makes Us Unique

WE CARE

At MoveIt®, your success is our success. We build true partnerships with our clients.

QUICK RESPONSE

Unlike larger companies, we quickly respond to each inquiry!

RELATIONSHIPS

Because MoveIt® has been around since 1979, we have the advantage of longevity and many strategic partnerships (and friendships).

OUR PEOPLE

The average employee has been at MoveIt® for over 15 years.

OUR SIZE

There are few mid-sized, independent 3PL's left in the marketplace. Our size means you have our undivided attention and focus.

3PL ADVANTAGE

MoveIt® is one of the only 3PL's in the US with a white glove service core and 3 individual enterprises to offer - freight, truckload and blanket wrap services.
